**Abundance Codes and Other Notes:**

COMMON (C): Found in moderate to large numbers, and usually easy to find in appropriate habitat.

UNCOMMON (U): Found in small numbers, and usually—but not always—found with some effort in appropriate habitat.

RARE (R): Occurs annually in very small numbers. Not to be expected on any given day, but may be found with extended effort in appropriate habitat at this time of year.

IRREGULAR (I): Represents an irruptive species whose numbers are highly variable from year to year. There may be small to large numbers present in one year, while in another year it may be absent altogether.

\* Naturally reproducing populations are rare on Long Island and may be restricted to eastern Suffolk County.

\*\* Please submit documentation.
